S. M. MEHRAB HOSSAIN JAYEED

+880 1533 652232 | mehrabjayeed715@gmail.com | LinkedIn | Github

ABOUT ME

Final year BSc CSE student specializing in AI-assisted full-stack development. Experienced in rapid MVP building using React, Node.js, and modern AI coding tools. Skilled in translating product requirements into structured prompts, validating AI-generated code, and deploying scalable web and mobile applications.

EDUCATION

Bachelor of Science in Computer Science & Engineering
Shanto-Mariam University of Creative Technology, Dhaka
Expected Graduation: 2026 | Current Semester: 9th
CGPA: 3.93 / 4.00 (up to 8th semester)

Higher Secondary Certificate (HSC)
Dhaka City College, Dhaka
Science Group | GPA: 5.00/5.00 | 2021

Secondary School Certificate (SSC)
Armanitola Govt. High School, Dhaka
Science Group | GPA: 5.00/5.00 | 2019

SKILLS

Technical Skills

- Programming: JavaScript, TypeScript, Python, C, C++ , Dart
- Frontend: React, Vite, Tailwind CSS, HTML5, CSS3,
- Backend: Node.js, Express.js
- Database: MongoDB, MySQL, PostgreSQL, Supabase
- AI/ML: LSTM (time-series), Federated Learning, NLP basics, Prompt Engineering

Digital Skills

- Tools: Git/GitHub, VS Code, Postman, Vercel deployment, REST API integration, MS Office
- Collaboration: Google Workspace, MS Teams, Zoom
- Design: Canva, Figma

Communication Skills

- Communication: Technical documentation, Team presentations, Project collaboration

LANGUAGES

- Bangla: Native
- English: Professional

PROJECTS

AI-Powered Smart Waterlogging and Drainage Optimizer

- Developed ML models (LSTM, federated learning, NLP) for real-time urban flood prediction using IoT data in Dhaka.
- Built edge-cloud system for automated pump/valve responses and citizen report integration.
- Contributed to prediction and community modules for enhanced city resilience.

UniShareSync (Full-Stack Web App)

- Engineered role-based platform (React/Vite/Tailwind, Node.js/PostgreSQL) for resource sharing, collaboration, and admin dashboards.
- Integrated JWT/OTP auth, real-time stats, file CRUD, and notifications; focused on scalability for campus use.
- Designed responsive UI and secure APIs.

Servyn: Local Service Booking App (Flutter)

- Developed fully functional mobile app for local service discovery, provider profiles, booking management, and in-app notifications.
- Implemented complete Flutter UI with REST API integration, state management, and secure user/provider flows.
- Delivered MVP with payment processing and provider verification features for seamless end-to-end service transactions.

TRAINING & CERTIFICATIONS

- Professional Certificate in Computer Science for Artificial Intelligence: HarvardX x Futurenation (In Progress)
- Project Showcasing 2025 Champion — SMUCT CSE & CSIT Dept., Robotics & IoT Community (TeamX member: demonstrated engineering & problem-solving skills)

EXTRA-CURRICULAR ACTIVITIES

- Team Leader, AI Idea Competition V2.0: SMUCT CSE & CSIT Dept. Led team in developing/presenting AI solution; coordinated research and poster design.
- Machine Learning Community Member,SMUCT: Participated in ML workshops and collaborated on exploratory projects.
